Additional Information
Important Information

Due to the multitude of different types of plastic in the market the compatibility with the substrate should be tested in advance for each individual case.
Not suitable for substrates made from polystyrene.
Do not use on thermoplastic paintwork.
Do not apply 2K UP products.

Shelf Life

60 months
The usage period refers to an unused can that is stored correctly at a temperature of 60° F - 77° F / 15 - 25° C and a relative humidity below 60%. The can must be stored and transported in an upright position in a dry place where it is protected against chemical and mechanical influences. The safety information on the can and all statutory provisions applicable for the storage site must be observed.

Disposal

The completely emptied spray cans must be disposed of in the recycling system. Cans with hardened material must be disposed of as special waste.
