16 PC. LOCKING LUG MASTER KEY SET

STEELMAN™ PRO

Steelman™ PRO's Locking Lug Master Key Set is specifically designed to remove locking lug nuts on aftermarket wheels. There are lug keys for nearly every aftermarket wheel on the market. This ensures when a customer comes in without their key you will be prepared! Simply use a combination wrench (not included) in conjunction with the keys and you should be able to remove any wheel outside of standard original wheels. May the keys be with you. Be a master of wheel removal, be a pro....Steelman™ PRO!
