

MATCHHEAD DF-MR003

High CRI and wide CCT produces the perfect lighting conditions!

The DF-MR003 MatchRight MatchHEAD 3 Color LED Head Lamp is a super bright rechargeable head mounted flood lamp. Mounting it on the user's head the lamp illuminates whatever area the user is facing but it also frees up their hands to concentrate on performing the task at hand. Motion Sensor Mode allows the user to simply waive their hand in front of the lamp to turn on and off the LED light. An impact and moisture resistant body protects the unit against falls and spills. An adjustable elastic headband with comfortable grips helps keep the lamp in place all day long. The included USB charger is able to charge the unit in 3 hours. On a full charge the MatchHEAD will last for 3 hours.

APPLICATION

Super bright LED with high CRI for color matching, paint polishing, and detailing.

FEATURE & BENEFITS

- 3 LIGHT COLOR - Wide CCT range from, 2700 to 6500K, to visualize truer color.
- HIGH CRI - Color Render Index of over 96 provides a true daylight view of the paint.
- MOTION SENSOR MODE: Light can be turned on/off with the wave of a hand.
- 60° ADJUSTABLE BRACKET - Easily point the lamp downwards to illuminate the work area below.
