#### **4** First-aid measures

- · Description of first aid measures
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: Immediately wash with water and soap and rinse thoroughly.
- · After eye contact:
- Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing: If symptoms persist consult doctor.
- · Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

# **5** Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water.
- · For safety reasons unsuitable extinguishing agents: Water with full jet
- · Special hazards arising from the substance or mixture No further relevant information available.
- · Advice for firefighters
- · Protective equipment: No special measures required.

#### **6** Accidental release measures

- *Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.*
- Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- *Methods and material for containment and cleaning up: Ensure adequate ventilation.*
- Do not flush with water or aqueous cleansing agents
- · Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

## 7 Handling and storage

#### · Precautions for safe handling

No special measures required. Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care.

 Information about protection against explosions and fires: Do not spray on a naked flame or any incandescent material. Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use.

• Conditions for safe storage, including any incompatibilities • Storage:

• **Requirements to be met by storerooms and receptacles:** Store in a cool location. Observe official regulations on storing packagings with pressurized containers.

· Information about storage in one common storage facility: Not required.

• Further information about storage conditions:

Keep receptacle tightly sealed. Do not gas tight seal receptacle. Store in cool, dry conditions in well sealed receptacles.

Protect from heat and direct sunlight.

· Specific end use(s) No further relevant information available.

#### 8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see item 7.

· Control parameters · Components with limit values that require monitoring at the workplace: 67-64-1 acetone PEL Long-term value: 2400 mg/m<sup>3</sup>, 1000 ppm Long-term value: 590 mg/m<sup>3</sup>, 250 ppm REL TLVShort-term value: (1782) NIC-1187 mg/m<sup>3</sup>, (750) NIC-500 ppm Long-term value: (1188) NIC-594 mg/m<sup>3</sup>, (500) NIC-250 ppm BEI 74-98-6 propane Long-term value: 1800 mg/m³, 1000 ppm PEL Long-term value: 1800 mg/m³, 1000 ppm REL TLV refer to Appendix F 123-86-4 n-butyl acetate PEL Long-term value: 710 mg/m<sup>3</sup>, 150 ppm REL Short-term value: 950 mg/m<sup>3</sup>, 200 ppm Long-term value: 710 mg/m<sup>3</sup>, 150 ppm TLVShort-term value: 950 mg/m<sup>3</sup>, 200 ppm Long-term value: 713 mg/m<sup>3</sup>, 150 ppm (Contd. on page 5) Printing date 08/14/2014

· Exp	osure controls
	sonal protective equipment:
	eral protective and hygienic measures:
Kee	p away from foodstuffs, beverages and feed.
Imm	nediately remove all soiled and contaminated clothing.
Was	h hands before breaks and at the end of work.
Avo	id contact with the eyes.
	id contact with the eyes and skin.
	athing equipment:
	ase of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use
	viratory protective device that is independent of circulating air.
	tection of hands:
	to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the
	nical mixture.
Sele	ction of the glove material on consideration of the penetration times, rates of diffusion and the degradation
PIL.	Protective gloves
The	glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
• Mat	erial of gloves
The	selection of the suitable gloves does not only depend on the material, but also on further marks of quality and
	es from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance
	ne glove material can not be calculated in advance and has therefore to be checked prior to the application.
	etration time of glove material
	exact break trough time has to be found out by the manufacturer of the protective gloves and has to be
	erved.

### **10 Stability and reactivity**

- · Reactivity
- · Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

## **11** Toxicological information

- · Information on toxicological effects
- · Acute toxicity:
- Primary irritant effect:
- on the skin: No irritant effect.
- on the eye: Irritating effect.
- Sensitization: No sensitizing effects known.
- · Additional toxicological information:
- The product shows the following dangers according to internally approved calculation methods for preparations: Irritant
- · Carcinogenic categories

· IARC (International Agency for Research on Cancer)

- 1330-20-7 xylene
- 108-88-3 toluene

100-41-4 ethylbenzene

· NTP (National Toxicology Program)

None of the ingredients is listed.

· OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

## **12 Ecological information**

- · Toxicity
- Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- · *Bioaccumulative potential* No further relevant information available.
- · Mobility in soil No further relevant information available.
- Additional ecological information:

· General notes:

- Water hazard class 2 (Self-assessment): hazardous for water Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small quantities leak into the ground.
- · Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- **vPvB:** Not applicable.
